

JAMES MITCHELL

IT Professional & Front-End Developer

027 665 2655 | hello@jamesmitchell.co.nz | jamesmitchell.co.nz | linkedin.com/in/jamesmitchell7

PROFESSIONAL STATEMENT

IT professional and front-end developer with a broad technical range — from Microsoft 365 administration and CRM implementation to hands-on HTML, CSS and JavaScript development and graphic design. Experienced managing cloud environments, leading platform migrations, and building and maintaining web interfaces both independently and through AI-assisted development with Claude Code. Brings both the systems thinking of an administrator and the visual sensibility of a trained designer to every role, backed by a strong customer service ethic built over twelve years of front-facing roles.

KEY SKILLS

Systems & Application Administration: Microsoft 365 (Exchange Online, Entra ID, SharePoint, Intune, Power Automate), Zoho One, JADE platform. User lifecycle management, email migrations, shared mailbox configuration, server monitoring, patching, backups and restores.

CRM & Business Systems: Implementation and administration across Zoho CRM, HubSpot and Dynamics 365. Platform integration, data mapping, data quality and LMS setup/support.

Front-End Development: Hands-on experience with HTML, CSS, JavaScript and JADE templating. Extended capability through AI-assisted development with Claude Code (TypeScript, React, Tailwind CSS, Cloudflare). Web standards, accessibility and UX design.

Collaboration & Tooling: Jira, Confluence, GitHub, Trello, Freshdesk/Zendesk, Microsoft Teams. Technical documentation, process guides and stakeholder communication.

Design & Visual Communication: Adobe CC (InDesign, Photoshop, Illustrator). Brand design, print collateral and digital assets. Pre-press production and print management.

WORK EXPERIENCE

Asturlab | Christchurch
Jan 2026 – Apr 2026

IT Professional & Web Developer

- Provided IT support and web development for the founding team of Islam Is... 4 for 40 — a free, MOE-recognised cultural competency programme delivering micro-learning content about Islam to New Zealand schools and workplaces, developed in partnership with Flourish Education Consultancy NZ.
- Administered Microsoft 365 (Exchange Online, Entra ID, SharePoint, Intune) and Zoho One environments – managing accounts, permissions, onboarding/offboarding and resolving technical issues
- Led email migration from Zoho Mail to Microsoft Exchange Online using IMAP migration batches in the Exchange Admin Centre, preserving full historical mail with zero data loss across multiple mailboxes
- Implemented and configured the organisation's Zoho CRM system, including data migration planning, field mapping and user training

- Set up and supported the Learning Management System, producing digital reports for programme tracking
- Built and maintained web pages using TypeScript, React and Tailwind CSS deployed via Cloudflare Pages
- Used Claude Code to refactor legacy HTML/CSS into modern React and TypeScript components
- Created print collateral and captured meeting documentation using Fireflies AI transcription

Jade Software Corporation | Christchurch 2021 – 2024

Developer 2022 – 2024

Maintained monitoring and management software for customer servers and environments on the JADE platform. Fixed bugs, implemented feature requests and ensured delivery of global managed services.

- Wrote clean, well-commented code and submitted for peer review with iterative improvements
- Performed extensive manual testing and wrote unit tests covering all scenarios
- Created detailed design documents and step-by-step process guides for end users

Systems Administrator 2022

First-line support for JADE applications and associated server platforms.

- Monitored servers and performed application updates, patches and routine maintenance
- Managed user accounts, log-on requirements, password resets and access control
- Responded to client queries via phone, email, Teams and Tracker; escalated when required
- Contributed to the development of operational procedures and support documentation

Business Systems Integrator 2021 – 2022

Integrated Jade's two CRM platforms (HubSpot and Dynamics), ensuring data accuracy and quality across systems.

- Configured CRM integration using data mapping to align fields between HubSpot and Dynamics
- Cleansed and verified data quality by contacting customers to confirm details
- Created support documentation for team members on data entry and synchronisation procedures

Freelance Graphic Designer | Christchurch 2013 – 2019

Delivered graphic design projects for small businesses including brand design, print collateral and digital assets using Adobe Creative Cloud. Contracted as lead in-house designer at Printable Solutions Ltd (2017–2018). Earlier maternity cover contract at Christchurch City Council (2013) designing print collateral for council departments.

EDUCATION

Intro to Generative AI (Microcredential) — Open Polytechnic 2025
